PROJECTS

Shelf – MongoDB, Express.js, React, Node.js (MERN stack)
Hosted at: https://shelfclient.onrender.com/

Add and review for books you have read with login functionality.

Celebrare – React, CanvasAPI, Tailwind
Hosted at: https://canvas-celebrare.onrender.com

Implemented canvas to add, edit, drag and delete text elements using CanvasAPI with undo redo functionality.

Assignment Submission App – React Router, Context API, MERN
Hosted at: https://asaclient.onrender.com/

Enables students to register, login and submit assignments while faculty can review submissions and track non submissions. Also has an admin dashboard.

E-Com Mock Website – React, React Router, Context API
Hosted at: https://ecom-client-p5n8.onrender.com/

Responsive e-com web app with dynamic routing and global cart state using Context API.
